

= Proven School Emergency Management

Powered by a Unified Platform for School Safety & Wellness

School communities are facing more safety challenges and added stressors than ever before. Providing effective safety measures for students and staff from physical and mental health threats is of the utmost importance.

Fully aligning with the proven practices of **The “I Love U Guys” Foundation’s Standard Response Protocol (SRP)**, CrisisGo provides an intelligent safety platform that creates a school safety network to prevent and respond to various school crises collaboratively and effectively, and ensures every part of the safety process is connected.

UNIFIED PLATFORM FOR SCHOOL SAFETY AND WELLNESS

CRISISGO EMERGENCY MANAGEMENT + SRP (Standard Response Protocol)

HOLD

In your room or area. Clear the halls.

Clear the hallways and remain in room or area until the “All Clear” is announced.

LOCKDOWN

Locks, lights, out of sight.

Move away from sight. Maintain silence. Do not open the door.

SHELTER

Hazard and safety strategy.

Use appropriate safety strategy for the hazard.

SECURE

Get inside. Lock outside doors.

Return to the building, lock outside doors and increase situational awareness.

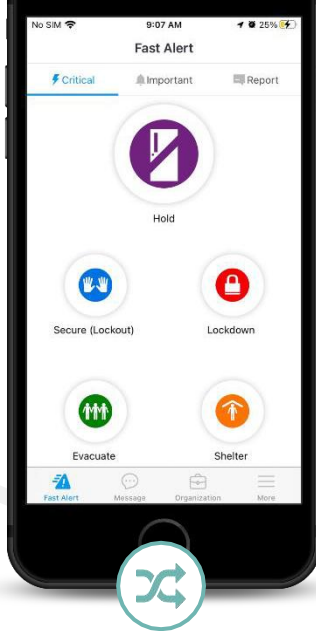

EVACUATE

Evacuate to a location.

Leave belongings behind if required to and follow the instructions.

Instant Alert with App and IOT buttons

Seamless integration with school safety systems

Emergency communication with staff, students & parents via multiple channels

Account for students & staff with immediate support

Collaborative response with law enforcement based on real-time situational awareness

CRISISGO + SRM (Standard Reunification Method)

Fully aligning with the proven practices of **The "I Love U Guys" Foundation's Standard Reunification Method (SRM)**, CrisisGo's reunification tool is an intelligent safety platform that connects students, schools, parents, and law enforcement to ensure efficiency and collaboration in the reunification process.

STEP 1

Parent Notification

Starting with **parent** communication, parents receive guidance and a **digital QR Code** to pick up students at the designated reunification site.

STEP 2

Confirm with Speed

When a parent arrives at the reunification site, greeters **scan the parent's digital ID** and know which kid(s) to pick up via mobile phones, and verify the parent's identity.

STEP 3

Reunification Coordination

Once the parent checks in, the staff members who are holding the students and runners get the message, and a runner takes the student to the reunification area.

STEP 4

Student-Parent Reunification

After confirmation with the student, the parent **signs a digital signature in the app**, and then they will be free to leave. The whole process is captured with time stamps in the system. Real-time progress is shown on dashboard and can be shared with law enforcement via simple sharing authorization.

SCHOOL ADMINISTRATORS

Understanding and managing the reunification process will likely be one of the most stressful processes school principals will experience. Being able to collaborate with parents and law enforcement effectively, see how the reunification process is progressing can decreasing stress and anxiety for everyone involved. Quickly reunifying students and parents accurately will also set up for success.

PARENTS

Keep all parents informed, communicating instructions, locations, warnings, and changes can ensure a calm and collaborative reunification process.

LAW ENFORCEMENT

Understanding real-time reunification progress, law enforcement can accommodate investigations, tracks victims to area hospitals and understand locations of all students.
