# CrisisGo + Rauland Telecenter U

Seamless Integration with Rauland Telecenter's Devices

When integrated with Rauland Telecenter's advanced IP devices, CrisisGo's alerts are broadcasted instantly and reliably, ensuring that everyone is notified—from district offices to individual classrooms.

Rauland's network-centric communication systems, powered by Telecenter U®, enhance emergency responses and everyday communication within schools.

CrisisGo + Rauland Telecenter U

One Alert. Multiple Endpoints. Unified Response.
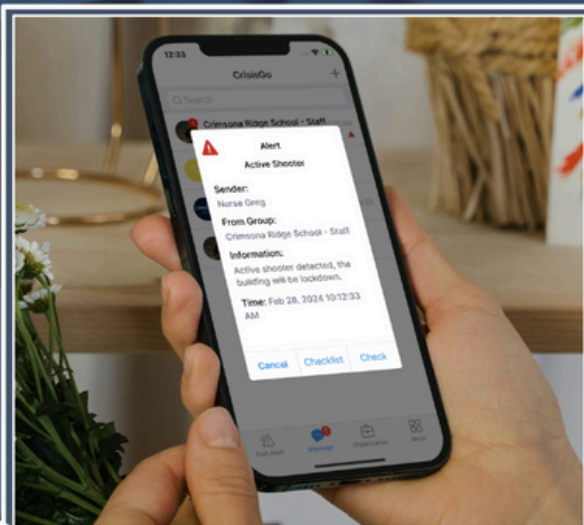

- **IP Intercoms & PA Speakers**

  Show lockdown instructions in real time.

- **Digital Signage & Wall Displays**

  Broadcast announcements campus-wide.

- **Rauland Kiosks**

  Deliver clear, visual directives to classrooms and staff.

Activate Crisis Response

LOCKDOWN

Locks, Lights, Out of Sight

CrisisGo + Rauland Telecenter U
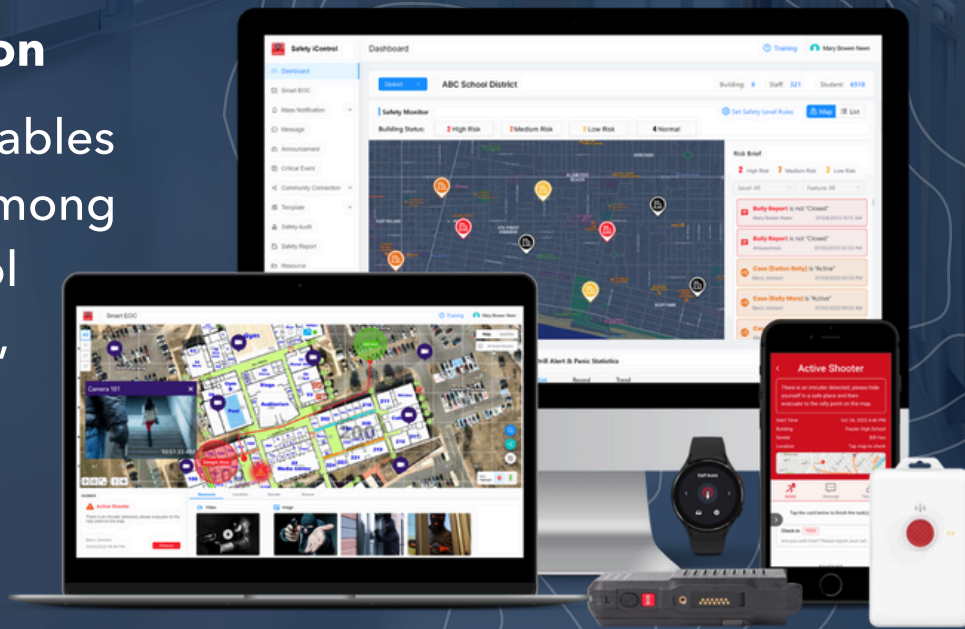

Key Features

- ### Immediate Activation

This ensures that alerts and responses like Lockdown, are activated instantaneously, reducing response times and increasing the efficacy of emergency protocols.

- ### Unified Communication Channels

By integrating with Rauland Telecenter, Safety iResponse synchronizes alerts across intercoms, PA systems, mobile devices, and desktops—ensuring clear, consistent communication during critical events.

- ### Real-Time Coordination

CrisisGo's integration enables real-time coordination among emergency teams, school staff, and district officials, supporting a unified, effective response.
